

LUV U

Terrace Martin

(I will always love you)

Yeah
And it's a mission till its over
I'm on you for real
Appreciative till this day
And I'm showing you still
Buying you that brand new, ya feel me?
Controlling the wheel
Been separated for a while
But it's never goodbye
'Cause this look in your eye
Can see a better me
A nigga love you like the letter C
You changed the Doggy's pedigree
You feel that?
On the real girl when you fell back
Felt like God was bringing hell back
So when you sent me that text like
"Pull up for a sec"
You had the doggy moving faster
Than a Hellcat, Cause
Cause, shit was gettin wicked for me
Damn near lost the only thing
That was consistent for me
We both know I need that
So (I will always love you)
I mean that for real, for real
Like for real for real
(I will always love you)

So much to say about love
The words never tell enough
But if it's up to me, I'll try
To show you for the rest of my life
Cross my heart boy, I'll be true
Not too much I would not do

I will always always always always
(I will always love you)
I will always always always always
(I will always love you)

We can take it slow
I will always love you
I can feel your soul
I will always love you
Baby I will take the time
To show you that I can love you
I see us holding hands
With family plans
I can love you
I can love you

So much to say about love
The words never tell enough
But if it's up to me, I'll try

To show you for the rest of my life
Cross my heart boy
I'll be true
Not too much I would not do

I can love you
