

Tapped

Terrace Martin

All these machines
Drones

Please believe what we are
Telling you
The drones are tapped
Please believe what we are
Telling you
The drones are tapped
Please believe what we are
Telling you
The drones are tapped
Please believe what we are
Telling you
The drones are tapped
Please believe what we are
Telling you
The drones are tapped

I know they watching, paranoia
Real obnoxious, California, is outta pocket
I'm takin' off, just like a rocket
Who the neighbors? They in my wallet
See you later, my fit is violent
Contemplatin', and my whip stay polished
I know they see it, the shit is obvious
I know they see it, the shit is obvious
I know they see it, this shit ain't promised

Please believe what we are
Telling you
The drones are tapped
Please believe what we are
Telling you
The drones are tapped
Please believe what we are
Telling you
The drones are tapped

I can't lie, I've been affected
What's inside, I've been neglecting
I'm just tryin' to bring the feeling back
I'm just tryin' to get the feeling back

I can't lie, I've been affected
What's inside, I've been neglecting
I'm just tryin' to bring the feeling back
I'm just tryin' to bring the feeling back

Can't pick you up, can't put you down
All these machines telling you how
All these machines telling you how
All these machines telling you how
Can't pick you up, can't put you down
All these machines telling you how
All these machines telling you how
All these machines telling you how

I can't lie, I've been affected
What's inside, I've been neglecting

I'm just tryin' to bring the feeling back
I'm just tryin' to get the feeling back

I can't lie, I've been affected
What's inside, I've been neglecting
I'm just tryin' to bring the feeling back
I'm just tryin' to bring the feeling back

Please believe what we are
Telling you
The drones are tapped
Please believe what we are
