

Here Comes Crazy

Terri Clark

Been a good girl been following rules
Playin' it cool never having more than one or two
Right between the lines showing up on time
Keeping it nice, always doin' what I'm supposed to do

Come on now
That ain't me
Let me show you how it used to be

Here comes crazy
All dressed up with an empty cup
So baby
Fill it up to the top with a couple of shots
Something strong to get me goin'
It won't be long till I start shown'
The wild side that I've been hiding lately
Here comes crazy

There ain't no shame in keeping it tame
But it feels insane to try and keep a good time down
Fun is trouble and trouble is fun
And I won't be done until I get just one more round

When I go
I'm gonna do it right
You better stand back tonight

Here comes crazy
All dressed up with an empty cup
So baby
Fill it up to the top with a couple of shots
Something strong to get me goin'
It won't be long till I start shown'
The wild side that I've been hiding lately
Here comes crazy

Here comes crazy
All dressed up with an empty cup
So baby
Fill it up to the top with a couple of shots
Something strong to get me goin'
It won't be long till I start shown'
The wild side that I've been hiding lately
Here comes crazy
Here comes crazy
