

Just Add Water

Terri Clark

Got the music, case of cans
Gotta cold one in my hand
Got that good sun gettin' hotter
Got a pole, got a bobber

Just add water
That's all you need
A lake, a pool, a pond or a creek
Whatever
Puts a smile on your face
Find your happy place
And just add water, just add water

Got some friends, gotta view
Gotta weekend with nothin' to do
A tailgate's great, but it can't float
Yeah everything's better in a boat

Just add water
That's all you need
A lake, a pool, a pond or a creek
Whatever
Puts a smile on your face
Find your happy place
And just add water, just add water

God looked down on earth in the beginning
And he said, it's almost perfect
There's only one thing missing

Just add water
That's all you need
A lake, a pool, a pond or a creek
Whatever
Puts a smile on your face
Find your happy place
And just add water

That's all you need
A lake, a pool, a pond or a creek
Whatever
Puts a smile on your face
Find your happy place
And just add water, just add water, add water
