

Glass in my eyes, now we're dancing in the dark
Taking candy from a baby, just enough to stop my heart
Left the past in your car, reputations won't get far
So let's turn into the creatures that we are

Shake your ass, move it like this
Move it like this, move it like this
Take your arms, do a little twist
Do a little twist, do a little twist
All the bodies hit the floor, drip drip
Have you ever drawn blood with a kiss?

Drip, drip
I see you're ghostin', every hit and every sip
How many spirits does a bitch gotta pray to?
If we die tonight, I promise that I'll thank you (Thanks)

Shake your ass, move it like this
Move it like this, move it like this
Take your arms, do a little twist
Do a little twist, do a little twist
All the bodies hit the floor, drip drip
Have you ever drawn blood with a kiss?
