

## Come First

Terror Jr

I got my own, don't need to buy me a drink  
Stop asking questions like you care what I think  
Cause it's great that you want me  
But I come with a warning  
So I'mma be real with you, I know what I need

Ain't easy, you gotta earn it  
Don't mind just watching you hurt it  
Keep trying, practice makes perfect

Baby, know that I come first, first, first  
Baby, know that I come first, I come first, I come first  
Baby, know that I come first, first, first  
Baby, know that I come first, I come first, I come first

I got my own, don't need to roll me a blunt  
Don't ask me questions like you care if I'm dumb  
Take my treasure in your hands  
Better get with the program  
I'll let you stay if you do something I like

I'm bossy, you can work for me  
So sorry, yet I'm not sorry  
I'mma work you into the morning

Baby, know that I come first, first, first  
Baby, know that I come first, I come first, I come first  
Baby, know that I come first, first, first  
Baby, know that I come first, I come first, I come first

Keep me satisfied  
I can make your head spin baby  
Just look me in the face, ooh  
I'mma show you what I like  
No, it ain't about you  
I gotta get me, myself, and mine

Baby, know that I come first, first, first  
Baby, know that I come first, I come first, I come first  
Baby, know that I come first, first, first  
Baby, know that I come first, I come first, I come first

Baby, know that I come first, I come first, I come first
