

Do Or Die

Terror Jr

You make mistakes, I make regrets
I get a high when you break your neck
I get a piece of mind when I squeeze the lime
I'm ready to come once you've sobered up
Calamari rings and a panorama truck
Santana sings with the bandana on
I can find you with no antenna on
I can find you

Ride with me, take some time, catch a vibe
Then get high with me
Ride with me, ain't no one on the side
Do or die for me
Ride with me, take some time, catch a vibe
Then get high with me
Ride with me, ain't no one on the side
Do or die (do or die)

We move so fast, I'm ripping apart
So fucked up, I glow in the dark
Let's go to sleep and never wake up
You just sound dumb to speak from the heart
This back and forth is stuck on repeat
Just get me drunk and I'll suck on your feet
And once you're hurt, it's not what it seems
I'll wash it out, you just gotta breathe

Just ride with me, take some time, catch a vibe
Then get high with me (high with me)
Ride with me, ain't no one on the side
Do or die for me

It comes and it goes
We only fuck on the low
So we don't decide
We have nothing to hide

You make mistakes, I make regrets
I get a high when you break your neck
I get a piece of mind when I squeeze the lime
I'm ready to come once you've sobered up
Calamari rings and a panorama truck
Santana sings with the bandana on
I can find you with no antenna on
I can find you
