

# Isolation

Terror Jr

I always thought I needed someone else  
I guess I really really didn't like myself  
I've been in a competition with myself  
I'm 'bout to take a vacation with myself

I'd rather be alone inside my room  
Than always be alone when I'm next to you  
I think it's time I got down with no one else  
I fell in love with isolation

All on my own  
With nobody to hurt  
I'm cutting dessert  
Finally figured out what I'm worth  
I'm loving my difficulties  
It's making me stronger  
It's making me triple my fees  
So payoff lasts longer

I always thought I needed someone else  
I guess I really really didn't like myself  
I've been in a competition with myself  
I'm 'bout to take a vacation with myself

I'd rather be alone inside my room  
Than always be alone when I'm next to you  
I think it's time I got down with no one else  
I fell in love with isolation

I'm revealing abilities  
No concealing this masterpiece  
I'm talking like Master P  
Make 'em say OHHHH  
I came to stun  
Have a little fun  
Maybe teach a nun that  
She's bigger than the sun  
Or anybody's son  
Look what I become  
Got the moon on the run (Yeah!)

I always thought I needed someone else  
I guess I really really didn't like myself  
I've been in a competition with myself  
I'm 'bout to take a vacation with myself

I'd rather be alone inside my room  
Than always be alone when I'm next to you  
I think it's time I got down with no one else  
I fell in love with isolation
