

Loner

Terror Jr

I'm not looking for forgiveness
If it's a sin to live the way I wanna
Domestication is a sickness
They got me caching
I need my distance

And I'm not doing fitness
It's too much of a commitment
I can't pretend
If I don't feel this
It might be selfish
But it's realness

Everybody's falling in love without me
Everybody's doing the drug
Everybody's saying it'll make me happy
But I just want that on my own

I guess I'm just a loner, baby, I, I
I guess I'm just a loner baby, I, I, I
Heart a little bit colder, colder, colder
I guess I'm just a loner baby, I, I, I

Heart a little bit colder, baby
Past the tree
Living in my head is my favorite place to be
I got trust issues with my anxiety
I'm fucking with myself
Burn a pyre with a wreath
Oh, needing somebody feels like Hell
And I'm already burning by myself

Everybody's falling in love without me
Everybody's doing the drug
Everybody's saying it'll make me happy
But I just want that on my own

I guess I'm just a loner, baby, I, I
I guess I'm just a loner baby, I, I, I
Heart a little bit colder, colder, colder
I guess I'm just a loner baby, I, I, I

Oh, needing somebody feels like Hell
And I'm already burning by myself

Oh, needing somebody feels like Hell
And I'm already burning by myself

Oh, I guess I'm just a loner, baby, I, I
I guess I'm just a loner baby, I, I, I
Heart a little bit colder, colder, colder
I guess I'm just a loner baby, I, I, I
