

# Trippin

Terror Jr

Do you know where all the dreamers go  
When they ain't got a place to party  
I can't say, I might just run away  
Say a blessing for the dear departed

In my head it's me and you sleeping and smoking on something long enough to [?]  
In my head it's me and you sleeping and sipping on something just to make it hard, baby

151 with the coke, 151 with the coke  
151 with the coke, 151 with the coke  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you

Mix some 151 with the propane  
Why you got my engine runnin' on a low tank?  
Dreaming like a first date  
When you're thirsty for that first taste  
Chewing on my tongue like it's bubblegum  
Kissing on my neck like I'm the only one  
But it's no fun if we're both nuns, on a dope run

In my head  
It's me and you sleeping and smoking on something long enough to [?]  
In my head  
It's me and you sleeping and sipping on something just to make it hard, baby

151 with the coke, 151 with the coke  
151 with the coke, 151 with the coke  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you

(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you  
(151 with the coke) Trippin' all over you

Oh, I've been waiting up
