

Windy Road

Terror Jr

Take me down a windy road
I'll follow you wherever you go
She's happy but she's easily broken
She's hot but her heart is frozen

Take me for a ride in your Nissan
I just wanna drive with this beat on
Heart so cold we need the heat on
And we fail every test that we cheat on

But that true love got me scared though
Got me running through these crops like a scarecrow
I'm just a slut looking for a rare ho
I want her legs in the air abierto

Take me down a windy road
I'll follow you wherever you go
She's happy but she's easily broken
She's hot but her heart is frozen

I just want that ice ice
Take me down a windy road
I'll follow you wherever you go

I just want that kiss kiss
She's happy but she's easily broken
She's hot but her heart is frozen

Took a wrong turn to lessons learned
Still broke every bridge there was left to burn
Still thinking bout that windy road
I'd do it again no brakes in the snow

As long as you'll be down to riiiiide
With the dark side of a Geminiiiiiiii
Oh as long as you'll be down to riiiiideee
With the dark side of a Gemini

Take me down a windy road
I'll follow you wherever you go
She's happy but she's easily broken
She's hot but her heart is frozen

Ice ice
Something spicy
Bite me if you like me
I'm a Pisces so I'm swimming in your psyches

I just want that kiss kiss
Chops
I'm a Pisces you can catch me on a hook hook hook
