

I love a little public rejection  
Not used to fighting for affection  
You line 'em up, you make your selection  
Good for you, good for you  
I love a little blood on my teeth  
When I cut 'em on your insecurities  
Hope she made you feel everything you need  
Good for you

Pretty sure I'm amazing  
Pretty sure you know  
But you kept me waiting  
Now you have to go, go

360, Kristi Yamaguchi  
Flip the script, make that shit a movie  
You got choosey, now you can't screw me  
Little bitch, little, little bitch  
360, Kristi Yamaguchi  
Flip the script, make that shit a movie  
You got choosey, now you can't screw me  
Little bitch, little, little bitch

Call me Kristi Yamaguchi  
I'm in the sky like I'm Lucy  
But I don't wear diamonds  
Fuck a star, I was already shining  
I could show you how to lose me  
Introduce me to your friends, they like, "who's she?"  
Bring a fork, bring a fork when you spoon me  
Good for you

Pretty sure I'm amazing  
Pretty sure you know  
But you kept me waiting  
Now you have to go, go

360, Kristi Yamaguchi  
Flip the script, make that shit a movie  
You got choosey, now you can't screw me  
Little bitch, little, little bitch  
360, Kristi Yamaguchi  
Flip the script, make that shit a movie  
You got choosey, now you can't screw me  
Little bitch, little, little bitch

Look at me, look at me, look at me, look at me  
I'm losing my own now  
Look at me, look at me, look at me, look at me  
No missed calls on my phone  
Look at me, look at me, look at me, look at me  
Oh, washing my dirty laundry  
Look at me, look at me, look at me, look at me  
Oh, watch the video, rewatch me, watch me

360, Kristi Yamaguchi  
Flip the script, make that shit a movie

You got choosey, now you can't screw me  
Little bitch, little, little bitch
