I know you don't want me, want me
You make that clear to see
I'm dying babe inside but it feels so free
Why do you have to leave me be?

I know you don't want me, want me
You make that clear to see
I'm dying babe inside but it feels so free
Why do you have to leave me be?

I know you don't want me, want me
You make that clear to see
I'm dying babe inside but it feels so free
Why do you have to leave me be?

I know you don't want me, want me
You make that clear to see
I'm dying babe inside but it feels so free
Why do you have to leave me be?

I know you don't want me, want me
You make that clear to see
I'm dying babe inside but it feels so free
Why do you have to leave me be?

I know you don't want me, want me
You make that clear to see
I'm dying babe inside but it feels so free
Why do you have to leave me be?
