

# ESSENCE

Terror Reid

I'm straight  
Climbin up on that roster  
Surging is like I'm a doctor  
Revolting fellas, I'm a tell dat hoe to top me up inna copter  
Shit, dey fold  
But I roll  
Reaching up through da smoke  
Gettem in a chokehold  
My soul been so cold  
Neva fuckin w broke hoes

We pullin back da cloth of the aggressors  
Trophy rest on da dresser  
Pressin 'cause da blood moon lookin like a Crescent  
I'm plottin now fo da present  
That slop got me feeling pleasant  
Notice my vicious essence  
As I demonstrate what death is  
Kid

I put 'em in tha trunk and drive the car in the lake  
I put 'em in tha trunk and drive the car in the lake  
'Cause daz wat a sucka get if he be all in my face  
'Cause daz wat a sucka get if he be all in my face  
Den ima pour a 40 out fo all da homies up in space  
Ima pour a 40 out fo all da homies up in space  
I'm neva seein dem again 'cause I be in a different place  
I won't be sein dem again 'cause I be in a different place

You drown in the smoke I thrive underneath  
Built for the pressure you crumble to pieces  
Candles they flicker they say it's completed  
Sacred geometry brought me the key  
You stuck in a cycle can't fight what you like  
Now you watching the time go  
Slip through your fingers  
Run at the mouth cannot believe ya

First to the feds when you get the subpoena  
Float in marina's get tossed like a bait  
When you meeting my nina between Catalina  
Smell that Regina kicked out the region  
Hoe you gon' fuck up and get emphysema  
Faith in a human I don't see a reason  
I been by myself couple dozen of seasons  
Triple the number the message I needed  
Enter my chamber can't promise you'll leave it
