Of course I hate you hoe
I cannot stand the sight of you
Don't you dare Bogart my blunt
Hoe who invited you
Wanna bring a smile onto my face
I'll tell you what to do
Bring me up a luggage filled with cash

Strictly pink n blue

Don't say you love me when I'm cold
No hoe I won't respond
This love and hustle oil and water
Never correspond
Call upon me all alone
You know you better off
Mix a golden chalice
With my ashes and I might re-spawn
Bitch
