

## KARMIC CIRCLE

Terror Reid

Climb the top then burn the roof  
This burning bush my golden goose  
Silence tell me who is who  
They feel 'fore I grace the room  
Sell me short get underpaid  
They tell me this shit overdue  
Widely loved for being me  
This shit don't work just cause it's you

Quest to brew this liquid truth  
Only 3-4 drops'll do  
Lotus wing Solstice bloom  
Return to where my soul anew  
Through and through  
Stand the sands of time  
They still can't solve the clues  
Feeling like the artist formerly known  
When I zip these boots

Fortify the peak dat I been climbin fo a century  
Glorifyin violence keep it quiet like is sposed ta Be  
Da karmic circle closin hear explosions wen I Show ma teef  
I meet release u sleepin sheep da shepherd Hailin from beneath  
Da answer to life I'm feelin 42  
We drop da top n mollywhop em all before we Get loose  
I need da loot I need da ends  
Bendin corners inna Benz  
Out collectin sheckles paint be speckled  
Devil of tha promise land

Always been the raw shit, these soft bitches get stepped on  
Fuckin with a model bitch my dick harder than Teflon  
Got her neck sore from swallowing, she tell her friends she slept wrong  
Fake bitches bite and bark and shit, but all of y'all Nintendogs
