

SERAPHIM

Terror Reid

All yall knuckle-draggin bitchez ain't shit
Lean when I spit thick game on a honey I been eyeing fo' a minu
te
Say she ain't wanna get to know me no betta
I think I know betta
You know da name it's only 4 letters

Hot like a volcano wicked raw
Pour draino on these suckaz, never fall
Terror wit da claws, kill em just 'cause
Zero error summon seraph, neva care about da costs

Pussy ass lookin fo' a path bitch please
Ima set it off light a fire with da breeze
Checkin fo' ya keys cuz I'm gonna need a whip
I'm in da stash spot finna dash with a zip

Gainer like a flip
No brainer with da clip
Leave a stain hope ya lame-ass came well equipped
Thickest hit list
Drank a fifth witchya mistress
Heavy rain fo' I split
Never fuck around
Yall could suck a dick

Da real mystifying oracle, aura vibe: horrible
Ya lookin fo' a feature motherfucker that's adorable
Sleepin when im dead that's why I been hibernating
Lyrics violate so I could earn a higher rating
Steel upon ya dome and you could meet eternal darkness
See me in ya sleep that's a bet and you's a target

Pull a cigarette before I flick it on da carcass
Keep it on da rocks n throw it on da black market
God damn
I need to meet the chef, shit slam
Be da R-O double C I hope ya brought some other pants
Suckaz never come close to da phantom
Terror showin up to interrupt, gimme da ransom
Hoe up in the trunk but why she still calling me handsome
Show up with da dope and throw a tantrum
Everything and then some
A haunted mansion, that's where I reside
Got a couple hunned bullets fo' yo motherfuckin ride uh
