

## Break the Lock

Terror

Evil got to me  
Mistakes followed me  
Living on instinct  
I won't stop

Nothing to live for  
How can you give more  
Don't lose the spirit  
Don't say you've lost

Crash and burning  
I'm overturning  
I always get up  
When I take a knock

I swing blindly  
With the chains that bind me  
Violently  
I break the lock  
Living on instinct  
I won't stop

Don't lose the spirit  
Don't say you've lost  
Always get up  
When I take a knock  
Violently  
I break the lock  
Finally, I break the lock

Break the lock  
Set yourself free  
Desperate times  
So desperately  
I move to break it  
This cage around me  
I set the fire to set you free

Break the lock  
Set yourself free  
Desperate times  
So desperately  
I move to break it  
This cage around me  
I set the fire to set you free

Break the lock  
Set yourself free
