

## Don't Need Your Time

Terror

Never asked for any of this  
To watch those opinions  
What makes you think you are the one  
Been going on instinct

Keep your thoughts out of my head  
Nothing's adding up  
Nothing's making sense  
Keep your words out of my mind  
I never wanted it  
I don't need your time

So now you think it's all in check  
You've locked this world back in  
But it's all such a fucking mess

Keep your thoughts out of my head  
Nothing's adding up  
Nothing's making sense  
Keep your words out of my mind  
I never wanted it  
I don't need your time  
To decide

For the last time  
I followed blind

For the last time  
I followed blind

Into the bitter end  
I was blinded by you  
Down to my last resistance  
What was true, I never knew
