

I Don't Know You

Terror

I gotta feelin' you could never kill
Tried before but they never will
You better realize
You're on the outside
You never own up to the things you say
I never listened to you anyway
So keep movin' on
Pay you no mind

I don't
I don't know you
Or owe you anything
I, I don't
I don't know you
Or owe you anything

Self entitlement and droppin' names
Caught the worst
When you thought it was safe
It's coming back
It's coming back to haunt you
I won't let you disrespect this
This is our world
We can live without you

I don't
I don't know you
Or owe you anything
I, I don't
I don't know you
Or owe you anything

Eye for an eye
You pushed me to this place
I don't know you
Or owe you anything
