

Resistant to the Changes

Terror

Through strife still living
Two faces from nowhere
And you gave us sight
To find what is real

Feel this we're alive
Been through hell with you by my side
Feel this we're alive
I will never take these words for granted
I came here to erase those years
You gave me a place to come home
And I will never walk this world alone

Resistant
Resistant

Don't tell me you lost it
Don't you tell me it left your bones
Cause I remember the late nights
You and I bared our souls

Feel this we're alive
Been through hell with you by my side
Feel this we're alive
I will never take these words for granted
I came here to erase those years
You gave me a place to come home
And I'll never turn my back on our world

These are the life and times
They've been so unforgiving
The scars map out the crimes
Our fight will not diminish

Resistant to the changes
Resistant to the strife
Resistant to the pressure
I resist it with you by my side

Feel this we're alive
Been through hell with you by my side
Feel this we're alive
I will never take these words for granted
I came here to erase those years
You gave me a place to come home
And I'll never turn my back on our world

Resistant to the changes
Resistant to the changes
Resistant to the changes
Resistant
