

Sink to The Hell

Terror

Caught in your web
Caught in your mind
I'm calling out to you
You've got to help me survive

So don't you go
And leave me out in the cold
You tried to rob me of my free will
All of [?]
Destroy and rebuild

Let it burn away
Sink to the hell where you remain

You've got to know
You can make it out on your own
When the bottom falls out don't play the fool
Pick up the pieces
Destroy and rebuild

Let it burn away
Just sink to the hell where you remain
Straight to your fate
So sink to the hell where you remain

I try and I try and I try
I've done more than my share
So let it all burn away
(Burn away)
No longer you have a piece of me

Caught in your web
Caught in your lies
I'm calling out to you
You've got to help me survive

Let it burn away
No longer you have a piece of me
Straight to your fate
So sink to the hell where you remain
