

# This World Never Wanted Me

Terror

I know the pain you feel  
Too well it's all too real  
You and I we can't deny  
We got something in common

The disregarded, the unwanted  
Left to ask what we've done to deserve it  
But now I'm at peace, it's meant to be  
This world never wanted me

You never wanted me

This world wasn't meant for me  
Not part of your society  
Don't wanna fit to feel your acceptance  
It means nothing

I've grown beyond your means  
You know you can't stop me  
This misery it set me free  
Thank god this world never wanted me

You never wanted me  
You never wanted me
