Do you mind?

Terrorgruppe

Do you like it spicy or do you like it hot you can have a little or a lot. That's all the conversation, at dinner-time we had I think when this over I'll be glad.

Do you mind if I don't mind cause you don't mind at all,

since we got together, years were passing by, relationship became a lame routine, love means killing time now, words nothing at all, your food's my only passion, nothing more

Do you mind if I don't mind cause you don't mind at all
