

Electrocuted

Terrorvision

I've got situations hold me back
I'm gonna spray this town a shade of black
I've got fingers in sockets of the world tonight
We're on fire, we're burning bright

I've been electrocuted, electrocuted, electrocuted
I've been electrocuted, electrocuted, electrocuted

There's a wild eyed serpent he's about to strike
And the getaway car is a motorbike
There's blood on my hands, I need to leave
A pack of aces up my sleeve

I've been electrocuted, electrocuted, electrocuted
I've been electrocuted, electrocuted, electrocuted

You got me buzzing and
I need unplugging and
You got me buzzing
And I know I need unplugging

You got me buzzing and
I need unplugging and
You got me buzzing
And I know I need unplugging

Blood sucking vampires, a ring of fire
Zombies crawl from a funeral pyre
Sparks fly high from the devil's eyes
Let's bring this life back down to size

I've been electrocuted, electrocuted, electrocuted
Electrocuted, electrocuted, electrocuted
Electrocuted, electrocuted, electrocuted, electrocuted
Electrocuted, electrocuted, electrocuted
