

# Magic

## Terrorvision

When people say "I know what you'd like"  
I don't like it  
When people tell me they know just what  
I need, I don't need it  
When people try to give me advice  
They tell me once but I ignore them twice  
They're like, "I believe in you just believe in yourself it's true", I don't  
believe it

Everytime I put the radio on  
I get a good idea for a song  
And I don't know where it's coming from  
It must be magic

When people tell me "you can't do that"  
I'm gonna do it  
They say "watch out cos you might get hurt"  
I just think screw it

Everytime I put the radio on  
I get a good idea for a song  
And I don't know where it's coming from  
It must be magic  
Just pull it out of thin air  
One minute nothing and then it's all there  
Don't know how and I don't really care  
Just believe in the magic

Everytime I put the radio on  
I get a good idea for a song  
And I don't know where it's coming from  
It must be magic

Everytime I put the radio on  
I get a good idea for a song  
And I don't know where it's coming from  
It must be magic  
Just pull it out of thin air  
One minute nothing and then it's all there  
Don't know how and I don't really care  
Just believe in the magic  
Magic  
Magic
