

## Four Corners

Terry Allen

I remember her in the trailer at night  
With her hair all wet and black and rolled up tight  
With the ribbons around her fingers  
Waiting for her hair  
Like the visions of a dreamer  
A curling through the air

I remember her blue kimono in the moonlight  
Drifting across her breast in the moonlight  
And I cupped her in my hands  
Just like two rainbows  
While she kissed me upon the mouth... of Colorado

Ahhh Colorado  
Affectionado  
Out of Texas  
Yeah down to Mexico up San Diego  
California  
Arizonia  
Yeah to 1 2 3 4 corners of... Colorado

And I remember her anger anchored on the night of sailing  
Cause the captain was drunk with a Gypsy bitch on the railing  
And with a sigh she cried  
Beneath that bastards' boom  
But her mast it slashed... like a dagger through the Spanish moon

And I remember her dark deck dancing on a wild new sea  
And the moan she groaned rolling from under me  
A Spanish bride  
Blazing before the dawn  
With her back on Madrid... and her belly on Tenochtitlan

Ahhh Colorado  
Affectionado  
Out of Texas  
Yeah down to Mexico  
Up San Diego  
California  
Arizonia  
and 1, 2, 3, 4 corners of Colorado
