

## The Feelings That We Lost

Terry Jacks

I heard you saying something this morning  
About the way I've been treating you  
And all the times I've been making you cry  
I'm not saying it's not true

But we've been here now for quiet wild lives  
And I've been thinking it's time to leave  
I don't feel good now  
Without you smile  
You're not happy here with me

And like the seasons that come between us  
And like the bridges we never crossed  
Like the love that's slowly dying  
From the feelings that we lost

And if I'm not back when it's summer  
And if I'm not here in the fall  
If I'm still gone when the snows on  
Then i won't come back at all

And if you miss me  
Don't try to find me  
Cause I'll be looking to find my self  
And I'll be long gone when the snow is on  
Maybe with somebody else

And like the seasons that come between us  
And like the bridges we never crossed  
Like the love that's slowly dying  
From the feelings that we lost

And if you miss me  
Don't try to find me  
Cause I'll be looking to find my self  
And I'll be long gone when the snow is on  
Maybe with somebody else

And like the seasons that come between us  
And like the bridges we never crossed  
Like the love that's slowly dying  
From the feelings that we lost
