

Built Her a Cloud

Terry Scott Taylor

I've got a princess who
wears a second hand dress
She tells me "Baby,
I know you've done your best"
Though I've found comfort
In the love we vowed
I can't help thinkin' that I've
let her down
Well, I'd do anything
to make her proud
Deserves a castle
I've only built her a cloud
Each day I work hard,
But time, it is no friend
One day you look up
and find you're near the end
There are some words too
dark to say aloud
like how you're thinkin' that there's
no way out
Though she's got faith in me
I have my doubts
Deserves a castle
I've only built her a cloud
She says "This cloud is
pretty close to heaven,
we should count our lucky stars"
I've heard each cloud
has a silver lining,
but I just see the rain in ours
Love to surprise her,
give her diamonds and pearls
If I could do it
she knows I'd give her the world
Though I've found comfort
in the love we've vowed
I can't help thinkin' that I've
let her down
I'd do anything
to make her proud
Deserves a castle
I've only built her a cloud
