

## Another Light

Tesla Boy

The burning house  
And melting roof  
She's next to me  
She's like a wolf  
She shows her nails  
And they are sharp  
Her passion is  
Tearing appart  
It's another light  
It's another light  
It's another light  
What could be best

To walk or fly?  
This voice inside  
Is too justify  
I'm drinking love  
With fire and ice  
I am amazed  
By her devil's eyes  
It's another light  
It's another light  
It's another light
