

Compromise

Tesla Boy

Everyday is a compromise
Everyday I am struggling
Can I find any remedy for my soul?
Is it all that I want to hear?
Is it all that I can change for us?
Is it all when you said "Let me go"?

And when I look back in the dark
The memories all around
I wish I could hide in the past
Over the space

Only these stars can help me now
Only these stars can save me
Only these stars can help me now
Only these stars can save me

Everyday is a compromise
Everyday I am struggling
Is there something that can make me stable?
Do you think you'll be happy now?

Do you think you can talk to me someday?
I will throw it all into the flame

When I look back in the dark
The memories all around
I wish I could hide in the past
Over the space

Only these stars can help me now
Only these stars can save me
Only these stars can help me now
Only these stars can save me

Save me, save me
Save me, save me
Save me, save me
Only these stars can save me
Only these stars can save me

Everyday is a compromise
Everyday I am struggling
Is there something that can make me stable?
