Invisible

Tesla Boy

Hey you an invisible girl
Don't you stay on your own
Hey you it's incredible world
It has been waiting for so long

Hey, girl, it's a Saturday night
You goin out and you take a bite
Hey girl, unbelievable flow
It's getting to your rising soul

Darling, heaven can't wait
Ain't no flying from fate
Follow me to the glow
Hold on hold on

Darling, heaven is near
Close your eyes, disappear
At the break of the dawn
Hold on hold on

Hey, you an invisible girl
Sweet taste of lost control
Frail night 'n' unbreakable day
Are melting into one foreplay

Hey girl an impossible crime
Just you and me love serpentine
Two hearts on a galaxy train
We gonna waste our life away

Darling, heaven can't wait
Ain't no flying from fate
Follow me to the glow
Hold on hold on

Darling, heaven is near
Close your eyes, disappear
At the break of the dawn
Hold on hold on
