Tesla Boy

Someday she'll find you're dumb  
The girl with a knife  
Somehow she will be close  
Girl with a knife  
Someday she'll say you're back

A girl with a knife  
Till then he'll wait, she'll cry  
A girl with a knife

She's falling out of your love  
Feeling burned into shape  
Fantasies of best friend on  
Girl, is that Asian?  
You look so alive  
Dancing in a crowd of ecstasy  
And she seems so alive  
Fast away in misery

Someday she'll find you're dumb  
The girl with a knife  
Somehow she will be close  
Girl with a knife  
Someday she'll say you're back  
A girl with a knife  
Till then he'll wait, she'll cry  
A girl with a knife  
She's falling to decay  
With it, my omission  
Every thought has gone astray  
Where is your religion?  
She seems so far  
She's going down way into it  
She looks so divine  
Eyes can really hide the truth

Someday she'll find you're dumb  
The girl with a knife  
Somehow she will be close  
Girl with a knife  
Someday she'll say you're back  
A girl with a knife  
Till then he'll wait, she'll cry  
A girl with a knife

If only she could down her play  
Somehow, someday  
She will be free of the anger  
Deep breath away

Someday she'll find you're dumb  
The girl with a knife  
Somehow she will be close  
Girl with a knife  
Someday she'll say you're back  
A girl with a knife  
Till then he'll wait, she'll cry

A girl with a knife
