

## Rock Bottom

Tesla

Seventeen and nature's queen, you all know what I mean  
Twenty-one a lone one, you can see the number's run  
Now you look so peaceful, lying there asleep  
With the wings of god above you  
Before the spirits meet

Rock bottom, rock bottom, rock bottom  
Rock bottom, rock bottom, rock bottom

Shallow earth is closin' in above her lamps in your street  
Lucifer goes walkin' down for you to meet  
Minutes pass so slowly by the hands on your clock  
Heavens door don't open, when you can knock

With all the darkness closin' in  
Will the light reveal your soul  
Just one sweet kiss, on your clay cold lips  
Long, long sleep you'll never know  
Where do we go, where do we go  
Where do we go from here
