

# Lights Go Up

TESLENKO

(I am fighting, I am fighting for love)

Monday, Friday, noon and afternoon  
I feel lonely like the moon  
I beg you, baby, please help me  
You're the light that sets me free

Only love can guide us through the fray (Only)  
Only love can light up our way (Show me)

Lights go up in the air  
I will fight all the way  
I am fighting for love everyday  
Yes, I am fighting for love everyday

Play me hard and make more scars on my soul  
I don't wanna lose myself, but I lose control  
From the first hello to the last confess  
Your loving heart I always bless

Only love can guide us through the fray (Only)  
Only love can light up our way (Show me)  
Listen up, I'm not a liar  
Now I am like raging fire  
Baby, take me to the end of stars

Lights go up in the air  
I will fight all the way  
I am fighting for love everyday  
Yes, I am fighting for love everyday

Lights go up in the air  
I will fight all the way  
I am fighting for love everyday  
Yes, I am fighting for love everyday

I am fighting for love  
I am fighting for love
