

## Rebirth

Tesseract

I believed in tainted words  
Destined for no greatness  
Accomplishing eternal hate  
Wish for second chance  
Dying here in Avalon  
Withered hope and tearful glances  
Damaged far beyond repair  
Dealing out your legacy of deep despair

Lie to me, be my enemy  
Destiny, it will turn internally  
Into insanity  
The agony descending down on me  
I can see all  
And everything you dream of  
I'll be there forever  
I'll be there forever

You're not the only one to dwell  
Deep inside a part of me  
You're not the only one to dwell  
I can't believe that you're  
Deep inside a part of me  
Living so dangerously  
Fighting to survive the storm  
Why are you now  
Desperately searching for me?  
I will breathe nothing but these toxic fumes  
You and I eternal  
Left to drain excessive urgent feelings  
Destiny will crumble  
I'm not dreaming  
I'm not taking second chances

You're not the only one to dwell  
Deep inside a part of me  
Fighting to survive the storm  
Desperately searching for me

Lie to me, be my enemy  
Destiny, it will turn internally  
Into insanity  
The agony descending down on me  
I can see all and everything you dream of
