

## Dream Deceiver

### Testament

Every night becomes a nightmare  
Nowhere left to escape  
She grips my soul and takes control  
From which I can't awake  
Tormented thoughts are clouding my mind  
Won't you leave me alone  
Yet every night, when I close my eyes  
Still the wicked roam

Dream deceiver  
She haunts my dreams all through the night  
Dream deceiver

Visions always forming, haunting  
Right before my eyes  
The demon song is always playing  
Calling out my name  
Evil thoughts are covering my eyes  
See her come and go  
Late at night when I hear her cry  
I spill some tears of my own

Dream deceiver  
She haunts my dreams all through the night  
Dream deceiver  
And when you're done with me, good night!

Another night in a living nightmare  
Nowhere to escape  
She rips my soul and takes control  
Even when I'm awake  
Tormented thoughts are seen through my eyes  
See them come and go  
Twisted thoughts are clouding my mind  
Please just let me go

Dream deceiver  
She won't stop haunting me at night  
Dream deceiver  
She's never done with me, all night
