

The psycho logic of the civilized, controlling thoughts within
their eyes
Contamination of the chemical, the hidden force within the soul
Fear alive will come alive fear will go, through the darkness a
nd the woes
There will be a light deep below, the sub-
conscience only knows fear

The politician and their freedom fight, when all is wrong there
is no right
The key of lies opening the door, to sacrifices in the holy war
The promise of eternal afterlife, manipulation internal strife
Forever-after has a fatal flaw, religious leaders above the law
Fear will come alive fear will go, through the darkness and the
woes
There will be a light deep below, the sub-conscience only knows
Fear, fear, shattering the atmosphere fear, fear, travesty is h
ere
Here, here, covering the path that's clear
Fear is only what you feel... false evidence appearing real

Black emotions grow on trees of scorn, seeds are planted from t
he day we're born
Plucked from darkness rushing to the light, instinct pulling yo
u to fight or flight
Paralyzed, vilified, voices within your soul are calling from d
eep inside
Terrorized, victimized, false prophets - nothing more than thou
ghts within your mind

The penetration of a deep abyss, along a passage to nothingness
Within the corners of the hidden eye, is where the sources of e
vil lie
So if you suffer with no end in sight, the veil of fear is an e
ndless night
Through confrontation it will be gone, the night is dark just b
efore the dawn
Fear will come alive fear will go, through the darkness and the
woes
There will be a light deep below, the sub-conscience only knows
Fear, fear, shattering the atmosphere fear, fear, travesty is h
ere
Here, here, covering the path that's clear
Fear is only what you feel... false evidence appearing real
