

## Nature of the Beast

Testament

So long, it's on with the show  
Forever wild with no place to go  
Born to lose, placing a bet  
You're all in and you have no regrets

Midnight, too blind to see  
Another game in the land of the free  
Spin the wheel, always on black  
Play for keeps, try to win back that stack

It's just the nature of the beast  
Here in the city of sin  
The nature of the beast  
On a losing streak again

Too late, you're never gonna fold  
Going down with an ace in the hole  
Against the odds, you play another hand  
You double down and you lose another grand

Bank roll in the palm of your hand  
You lose it all and you don't give a damn  
Wake up, why can't you see  
The ace of spades is the card that you need

It's just the nature of the beast  
Here in the city of sin  
The nature of the beast  
You're never gonna win

It's just the nature of the beast  
Here in the city of sin  
The nature of the beast  
You're never gonna win

Nature of the beast  
You're never gonna win  
Nature of the beast  
Will you ever win?
