

# Stronghold

## Testament

Elected to the show and our freedom never knows  
How is who and where to why we fail  
Those who are in charge in controlling who we are  
When there's nothing we can even fucking do, up rise stronghold

Fight for survival, fighting for your life  
We're fighting for the reptiles  
Freedom of speech, freedom of lies  
They tell us what we want to hear, it happens all the time

Does it mater what the people say, hey  
Does it matter to you, who  
Does it mater what the people say, hey  
What do the people want to do

Feeling no devotion, the final vote is in  
People have elected, the incumbent to win  
The time is for reprisal, time to incite  
'Cause there's nothing we can even fucking do, up rise stronghold

Putting it together and forcing them to fight  
Bringing home the reptiles who bled the world dry  
Seeing through their speeches and reading through their lies  
They show us what we want to see, it happens all the time

Does it mater what the people say, hey  
Does it matter to you, who  
Does it mater what the people say, hey  
And there's nothing you can do

Up rise stronghold

What is the price you'll pay, no need to beg or borrow  
Is there a better way will our children see tomorrow  
Don't live in yesterday, so take the lead not follow  
Forever holiday, we have the final say

Up rise stronghold

Feeling no devotion, the final vote is in  
People have elected, the incumbent to win  
The time is for reprisal, time to incite  
'Cause there's nothing we can even fucking do, up rise stronghold

Fight for survival, fighting for your life  
We're fighting for the reptiles  
Freedom of speech, freedom of lies  
They show us what we want to see, it happens all the time

Does it mater what the people say, hey  
Does it matter to you, who  
Does it mater what the people say, hey  
What do the people want to do
