

## Break The Trend

Tetrarch

Kill me, Kill me  
For the way I am  
Drag me to the water  
Throw me in

No! I can't believe  
The rage you feel  
At the thought of me

They beat us down like were not human  
This is the war we'll never win  
Their hate is rooted deep inside  
We are the fire the burning cleanse  
We are the ones to break the trend  
We will fight until we die

Choke me, choke me  
Till there's no breathe left  
I won't let my silence  
Bring you rest

No! I can't believe  
The rage I fee  
Inside of me

They beat us down like were not human  
This is the war we'll never win  
Their hate is rooted deep inside  
We are the fire the burning cleanse  
We are the ones to break the trend  
We will fight until we die
