Freak

Tetrarch

We put on our best face hide who we are
Can't let them see our scars
Want me to run away and change who I have become
If you had your way I would end my life young
Degrade disgrace to keep up an image
But I know your secret

It's never what you see

Enter my world where the crazy live
Cause I want you to clear your mind
Break every fear inside
In the darkness the strange become ordinary
So come and let your psycho loose

Freak
Freak

Live for the excess the thrills in the night
Can't be seen in the light
Try to hide your vice won't let anyone know
The life that you live when you're all alone
Disdain disgust escape from it all
Just embrace your fall

Be the freak you are
So let go

Enter my world where the crazy live
Cause I want you to clear your mind
Break every fear inside
In the darkness the strange become ordinary
So come and let your psycho loose

So come and let your psycho loose

Enter my world where the crazy live
Cause I want you to clear your mind
Break every fear inside
In the darkness the strange become ordinary
Be a freak you're a freak be a freak

Enter my world where the crazy live
Cause I want you to clear your mind
Break every fear inside
In the darkness the strange become ordinary
So come and let your psycho loose

Freak
Freak
Freak
