

# Never Again (Parasite)

Tetrarch

You drain me of myself like a parasite

As time goes on I can't help but think  
Back at what you've done to me  
Whenever I need help you shut me out  
You like to make me question myself

I know what you do  
I saw it all along  
You make me feel  
Like I am wrong  
You played on my kindness  
And I let you in  
I gave you my trust  
But never again

You don't care and it shows  
You do just enough so that I don't go  
Never there when I am low  
You turn on me when I need you most

I know what you do  
I saw it all along  
You make me feel  
Like I am wrong  
You played on my kindness  
And I let you in  
I gave you my trust  
But never again

Every time I think I'm fine  
You come to paralyze  
And put the doubt back in my mind  
I feel like nothing is alright  
You got me paranoid  
You drain me of myself like a parasite

I know what you do  
I saw it all along  
You make me feel  
Like I am wrong  
You played on my kindness  
And I let you in  
I gave you my trust  
But never again

I know what you do (like a parasite)  
I saw it all along (like a parasite)  
You make me feel (like a parasite)  
Like I am wrong (like a parasite)  
You played on my kindness (You're a parasite)  
And I let you in (You're a parasite)  
I gave you my trust (You're a parasite)  
But never again (You're a parasite)

I feel like nothing is alright  
You got me paranoid

You drain me of myself like a parasite
