Pull The Trigger

Tetrarch

Pull the trigger
Pull the trigger
Quit your whining little bitch pull the trigger
Pull the trigger
Pull the trigger
Put the gun up to your head and pull the trigger

Oh my God I am down and I'm drowning
I wanna scream out loud don't have the energy
I can't kill the pain
Each breath I'm questioning

Only one answer cause they're never gonna care about ya
And you could end it all won't cross their memory

No cure you're sick
Piece of shit
Load the fucking gun and get this over with

Light is fading from my eyes
Give me one more try

You have no purpose and your life is fucking worthless
Always a loser and you're gonna give in to us

Don't ever talk to me
Don't put that shit on me
Get away from me
Back the fuck up

(First step humiliation, cut up mutilation, You're dead, you're dead, you're dead, you're dead)

We're gonna cut in to you rip your heart and strip it from ya
Leave you in pieces no one there to put them back just give up

Get away from me
Get away from me
Stay away from me
Back the fuck up

Pull the trigger
Pull the trigger
Quit your whining little bitch pull the trigger

Light is fading from my eyes
Give me one more try
Forgive me if I cry
I'm too young to die

No cure you're sick
No cure you're sick
No cure you're sick

Now put the gun up to your head and pull the trigger

I'm a loser

I'm fucking done

Light is fading from my eyes
Give me one more try
Forgive me if I cry
I'm too young to die

Light is fading from my eyes
Give me one more try
Forgive me if I cry
I'm too young to die
