

## Trust Me

Tetrarch

It was never like you to quit  
So how could you go through with this  
Would you leave yourself behind  
For a peace you may never find

You needed me  
And I was there  
But you pushed me aside  
Cause you didn't wanna hear

Trust me and lay down your fears  
Run to me if it seems like there's nothing here  
Scratching and clawing  
But you're still falling  
Breathe in you're okay  
Please trust me

I can't stand to see you suffocate  
In the hands of your own mistakes  
You never asked me for help  
You're left living with the guilt

Trust me and lay down your fears  
Run to me if it seems like there's nothing here  
Scratching and clawing  
But you're still falling  
Breathe in you're okay  
Please trust me

Trust me and lay down your fears  
Run to me if it seems like there's nothing here  
Scratching and clawing  
But you're still falling  
Breathe in you're okay  
Please trust me
