

# What Do I Say

Tevin Campbell

Girl we've been the best of friends  
I never want that feeling to end  
But you've got to know what's been on my mind  
'Cause I've been holding back baby for the longest time

Every night I lie alone in my bed  
Pictures of loving you running round my head  
Now baby it's time to let you know that I want you  
That I need you and I never wanna let you go

What do I say, what do I do  
Tell me baby just to get next to you  
What do I say, what do I do  
Tell me baby just to get next to you  
What do I say

Maybe you'll turn and walk away  
That's a chance that I've got to take  
Said I've got to know do you want me to  
'Cause I won't ever be free baby till I know the truth

We always talk about the good times that we had  
But girl tonight let's talk about what lies ahead  
'Cause baby when I look into your eyes, I wanna touch you  
I wanna hug, I wanna love you for the rest of my life baby

What do I say, what do I do  
Tell me baby just to get next to you  
I wanna know what do I say what do I do girl  
Tell me baby just to get next to you  
What do I say

Every night I lie alone In my bed pictures of me  
Lovin' you running round and round and round my head  
And baby when I look into your eyes, I wanna touch you  
I wanna hug you, I wanna love you for the rest of my life

What do I say, what do I do baby  
Tell me baby tell me baby just to get next to you, yeah  
What do I say, what do I do  
Tell me baby just to get next to you  
Ooh baby what do I say

What do I say
