

# Hell Hounds

Texas Hippie Coalition

I come riding in on chrome and steel  
And I'm about to show you just how I feel  
And I know that you think that you're so strong  
And I've been sent to prove you wrong  
Yeah  
Yeah

Time has come  
To release the Hell Hounds  
Hot on your trail  
And hunting you down  
So you best get to  
Running, and running, and running, and running  
Running, and running, and running, and running  
Running, and running, and running, and running  
Running, and running, and running, and running

I ride out on chrome and steel  
And now you know just how I feel  
And I know that you think that you will survive  
And I doubt seriously you make it out alive  
Yeah  
Yeah

Time has come  
To release the Hell Hounds  
Hot on your trail  
And hunting you down  
So you best get to  
Running, and running, and running, and running  
Running, and running, and running, and running  
Running, and running, and running, and running

Time has come  
To release the Hell Hounds  
Hot on your trail  
And hunting you down  
So you best get to  
Running, and running, and running, and running  
Running, and running, and running, and running  
Running, and running, and running, and running  
Running, and running, and running, and running
