

Keep My Name Out Of Your Mouth

Texas Hippie Coalition

Made American, straight-up Texan
I know you hate me 'cause you see me flexin'
You best believe it, love it, or leave it
For God and country, I live and bleed it

Keep my name out of your mouth

I was raised on weed and whiskey
And you're just mad 'cause your girlfriend kissed me
I was born to raise hell
I was sent to ring that Southern bell

A real hell raiser a true trailblazer
I think you'll find me sharp as a razor
I made the hit list, and here come the plot twist
I'm not the villain, and I'm about to end this

Keep my name out of your mouth

I was raised on weed and whiskey
And you're just mad 'cause your girlfriend kissed me
I was born to raise hell
I was sent to ring that Southern bell

I was raised on weed and whiskey
And you're just mad 'cause your girlfriend kissed me
I was born to raise hell
I was sent to ring that Southern bell
