

## Without a Head

Texas in July

I saw you die inside today I saw you die inside today Its gonna  
make things hard for you But I see the will in you to change T  
he way you've been Has me wishing the best for you Only the bes  
t for you Dead space replaced my memory back The weight of your  
world has come over me It's never been the same Are you the on  
e to blame? If I could only ask for a better way A better way t  
o save you

Chop block with your head on it You can cut it off Do what you  
want with it Who need a head when you don't use it? Abused and  
polluter This is not an illusion

I saw you die inside today I saw you die inside today It's gonn  
a make things hard for you You take a shot at me And in the end  
you'll see That your words will chain you down Committed all a  
lone And in the time to come You'll grip the hell that you put  
me through

Chop block with your head on it You can cut it off Do what you  
want with it Who needs a head when you don't use it? Abused and  
polluted This is not an illusion

There's one illusion that I can see It's that you need that thi  
ng Bow down to the bottle You're gonna lose your family

I've seen you stand taller than this I've seen you stand taller  
Face first in the earth Addiction suffocates Or it separates W  
hichever one comes first The weight of your world has come over  
me It's never been the same Are you the one to blame? If I cou  
ld only ask for a better way A better way to save you
