

One and Only

Texas Tornados

Empty bottle stares at me
Suitcase by the door
Still I wonder, can it be
Like it was before?

Like a star in the night
We loved so well
I love you, baby
Yesterday

Yes, it's me, the one and only
Standin' here for all the world to see
Yes, it's me, the one and only
I'm not at all what I seem to be

Some day, baby, we'll work it out
Turn back the hands of time
'Til then, baby, I've got to find
Just a little peace of mind

Like a star in the night
We loved so well
I love you, baby
Yesterday

Yes, it's me, the one and only
Standin' here for all the world to see
Yes, it's me, the one and only
I'm not at all what I seem to be

Some day, baby, we'll work it out
Turn back the hands of time

Yes, it's me, the one and only
Standin' here for all the world to see
Yes, it's me, the one and only
I'm not at all what I seem to be

Yes, it's me, the one and only
Yes, it's me, the one and only
Yes, it's me, the one and only
